General / YA

Camelot has fallen ...

The last of the Knights of the Round Table stand with King Arthur to face a final onslaught by Mordred LeFay's forces. The threat is deepened by a deadly alliance between the fallen knight of Camelot and the dark powers of the sorceress Morgana.

Throughout his greatest of quests, Arthur will reunite with old friends, and bring together a team of skilled and brave new allies, including the hooded archer of Sherwood! However, the forces of evil pursue them at every turn; stalked by a cursed brute, beset by strange monsters and creatures of dark magic, and haunted by a mysterious knight clad in crimson armour.

Shadows stir as mystic visions warn of the fate to befall the lands of Albion and beyond should Arthur and his new companions fail to save a long lost island, once thought to be merely legend ... the island kingdom of Avalon.

- ✓ Arthurian Fantasy & Magic
- ✓ Diverse Cast based on Legend & Myth
- ✓ Young Reader Friendly
- ✓ First in Trilogy by New Australian Author

"An enjoyable take of the classic tales of knights, mythical beasts, and magic. With great characters and plot."

– **Nurture Magazine**

About the Author

Savannah K. Wilson

Savannah K. Wilson is an author living in Australia's majestic Blue Mountains area, on Dharug and Gundungurra Country. Born and raised in the Thunderdome that is the Western suburbs of Sydney during the early 80s and 90s. Savannah learned how to live well, be kind to others, what to say no to, and other valuable life lessons in the same way many of her generation did; by watching the public service announcements from Saturday morning cartoons, and always preferring to dwell in the realms of dragons, myths, and imagination over the relative dullness of so-called reality.

The Knights of Avalon is her debut novel.

Other achievements of note include and are mostly limited to; a thus far unused B/A Honours degree researching inappropriate humour in puppets, always carrying a pen, once consuming thirty pieces of sushi in one meal, and the very mild superpower to make trains arrive two minutes early.

"Dragons and faeries once roamed our world; now they reside only in our imagination. It is an author's duty to breathe new life into them through stories and fantasy."

Favourite Book: *The Hobbit*

Favourite Author: C.S. Lewis
